DPW Holdings' Coolisys Power Electronics Business Announces New Hybrid AC and DC Electric Vehicle Charger

Single Charging Station Will Produce Both Level 2 AC Charging and Level 3 DC Fast Charging

Newport Beach, CA, October 2, 2020 -- DPW Holdings, Inc. (NYSE American: DPW) a diversified holding company ("DPW," or the "Company"), announced that its power electronics business, Coolisys Technologies Corp. ("Coolisys"), is introducing a new hybrid alternating current ("AC") and direct current ("DC") electric vehicle ("EV") charger. The new hybrid EV charger is a single charging station that produces both an AC and a DC charge and includes multiple charging configurations, including a level 2 AC charging plug, compatible with the J1772 standard, and two level 3 DC fast charging plugs compatible with the CCS1 and CHAdeMO standards. This unique hybrid configuration can charge virtually any type of electrical vehicles, such as, Honda, Nissan, Mitsubishi, Toyota, Kia, Subaru, Ford, General Motors, Volkswagen, Audi, Jaguar and Tesla (with the appropriate Tesla charging adapter).

Coolisys' new EV charger product line features a user-friendly interface displayed on a large touchscreen, advanced user authentication, and provides wired or wireless connectivity for communication with a central office to facilitate charging status updates in addition to remote assistance and software updates.

Coolisys' President and CEO, Amos Kohn said, "We are pleased to announce the introduction of the new hybrid EV charger to our growing EV charger product line. The new hybrid EV charger provides flexibility as it will produce both an AC and DC charge and is compatible with the J1772, CCS1 and CHAdeMO standards. We believe our expanded product line is well positioned to address the expected rapid expansion of infrastructure required to support broad adoption of electric vehicles globally."
